

EXP NO: 1	AZURE DEVOPS ENVIRONMENT SETUP
------------------	---------------------------------------

AIM:-

To set up and access the Azure DevOps environment by creating an organization through the Azure portal.

INSTALLATION:-

1. Open your web browser and go to the Azure website:

<https://azure.microsoft.com/en-us/get-started/azure-portal>.

Sign in using your Microsoft account credentials.

If you don't have a Microsoft account, you can create one here: <https://signup.live.com/?lic=1>

The image shows a screenshot of the Microsoft Azure portal website and the Azure mobile app interface. The top part of the screenshot displays the Azure portal homepage with the Microsoft logo, navigation links (Azure, Explore, Products, Solutions, Pricing, Partners, Resources), a search bar, and buttons for "Get started with Azure" and "Sign in". The main heading is "Microsoft Azure portal" with the subtext "Build, manage, and monitor everything from simple web apps to complex cloud applications in a single, unified console". Below this are "Sign in" and "New to Azure? Get started" buttons. A blue banner at the bottom of the portal section says "Check out the how-to video series for tips on deploying your cloud workloads from the Azure portal." Below the banner, the "Azure mobile app" is promoted with the text "Stay connected to your Azure resources—anytime, anywhere. Now available for iOS". To the right, two smartphones are shown displaying the Azure mobile app interface, which includes a status bar at the top, a header with the app name and connection status, and a main section titled "Activity logs" showing "2 Errors" and "2 Warnings".

2. Azure home page

3. Open DevOps environment in the Azure platform by typing *Azure DevOps Organizations* in the search bar.

4. Click on the **My Azure DevOps Organization** link and create an organization and you should be taken to the Azure DevOps Organization Home page.
